

External Assessment

1 General

- 1.1 External assessment is a form of independent assessment where assessment tasks are set, marked, or assessed by the Awarding Organisation. BIIAB Qualifications Limited (BIIAB) seeks to ensure that its assessments are clear and transparent, accurately measure the purpose of the qualification/end-point assessment and show no bias towards any particular group.
- 1.2 We may use one or more of the following methods of external assessment in our regulated qualifications or End-point assessments:
 - Examinations which may be handwritten or provided as onscreen tests. They may be made up of multiple-choice questions (MCQ), short answer questions (SAQ), long answer questions (LAQ) or a combination of these.
 - Coursework which will involve the production of an end product, such as a project portfolio, a finished garment or a piece of artwork (this is not an exhaustive list) or a collection of externally assessed essays or controlled assessments.
 - A professional discussion or interview;
 - A practical demonstration of skills.
- 1.3 We provide on-demand onscreen and paper-based tests and/or assessment windows throughout the year dependent on the qualification. Where assessments are only available within a certain timeframe, timetables are published on our website.
- 1.4 Exemplar questions for some assessments are available and Centres¹ will be directed to where these can be accessed.
- 1.5 Assessment evidence submitted directly to us is retained whilst any period for enquiry and appeal is valid. It is then treated as confidential waste and destroyed. Some assessments may be retained for standardisation and benchmarking purposes beyond this period but will continue to be stored securely and anonymised if used.
- 1.6 External assessment evidence will not be returned to the Centre, but individual test grades and examiner reports will be published on our secure portals or website where appropriate.
- 1.7 All external assessments must be conducted in English unless the purpose of the assessment is to test proficiency in a language other than English.

¹ A 'Centre' in the context of this document applied to organisations, whether a training organisation, educational institution or employer, that deliver qualifications and / or assessments to individuals and as such have a duty of care with respect to the individual as a learner.
