

Claiming Certification Policy

1 General

- 1.1 This BIIAB Qualifications Limited¹ policy sets out the rules and conditions for claiming certificates.
- 1.2 It is the Centre's responsibility to claim achievements for its learners where a qualification has an internal assessment. Centres must have appropriate systems in place to ensure that claims are valid and correct. Invalid, incorrect, or fraudulent claims will be referred as Malpractice or Maladministration and Centres may be subject to sanctions as a result.
- 1.3 Valid claims² can be made at any time of year. Once a Centre's claim has been authorised by BIIAB Qualifications Limited, certificates will be issued within 10 working days and will be despatched to the Centre which initially enrolled the learners unless we have been notified otherwise.

2 Incorrect / Fraudulent Claims

- 2.1 Claims for certification that are proved invalid, incorrect, or fraudulent will be treated by BIIAB Qualifications Limited in accordance with its policy on Malpractice and Maladministration and proven cases may result in sanctions against the Centre. Serious cases will be notified to the Regulators³ and other Awarding Organisations which may have an interest in the units /qualifications or products claimed.

3 Checking Certificates

- 3.1 Once in receipt of certificates, Centres are requested to check all certificates for accuracy before releasing them to learners. If any incorrect certificates are received, we must be notified, and they must be returned to us immediately with an explanation/reason for the error.
- 3.2 It is the Centre's responsibility to ensure that every effort is made to deliver certificates to learners without undue delay. Any enquiries received from learners about the status of their certificate claims will be referred to the Centre.

¹ BIIAB Qualifications Limited is a recognised awarding organisation and part of the Skills and Education Group.

² A valid claim is a) when, where applicable, assessment, internal and external quality assurance have been completed satisfactorily and there are no actions preventing certification or b) when, where applicable, assessment and internal quality assurance have been completed and direct claims have been granted and claims have been internally quality assured.
