BIIAB Level 2 Award In Employee Rights and Responsibilities in the Logistics Industry

Level 2 Award – 601/6848/1 (England)
- C00/0761/1 (Wales)

About Us

BIIAB Qualification Limited is part of Skills and Education Group, a charitable organisation that champions education and skills-oriented organisations, providers and learners, making real change locally, nationally and internationally.

BIIAB Qualifications Limited has an on-line registration system to help customers register learners on its qualifications, units and exams. In addition it provides features to view exam results, invoices, mark sheets and other information about learners already registered.

Sources of Additional Information

The BIIAB Qualifications Limited website www.biiab.co.uk provides access to a wide variety of information.

Qualification Summary

BIIAB Level 2 Award in Employee Rights and Responsibilities in the Logistics Industry – 601/6848/1 (England) and C00/0761/1 (Wales)	

Qualification Purpose	To give learners the knowledge, understanding and skills to work in a variety of roles in the logistics industry, such as that of a Warehouse Operative.						
Age Range	**Pre 16**		**16-18**	✓	**18+**		**19+** ✓
Regulation	The above qualification is regulated by Ofqual						
Assessment	• Portfolio of Evidence						
Type of Funding Available	See FaLa (Find a Learning Aim)						
Qualification/Unit Fee	See BIIAB Qualifications Limited web site for current fees and charges						
Grading	Pass/Fail To achieve a Pass grade, learners **must** achieve all the Learning Outcomes and Assessment Criteria in all the units completed						
Operational Start Date	01/12/2015						
Review Date	30/09/2025						
Operational End Date							
Certification End Date							
Guided Learning (GL)	32 hours						
Total Qualification Time (TQT)	50 hours						
Credit Value	5						
BIIAB Qualifications Limited Sector	Business Support						
Ofqual SSA Sector	7.2 Warehousing and distribution						
Support from Trade Associations							
Administering Office	See BIIAB Qualifications Limited website						

Qualification Guidance

About the BIIAB Level 2 Award in Employee Rights and Responsibilities in the Logistics Industry

BIIAB Qualifications Limited is regulated to deliver this qualification by Ofqual, Qualifications Wales and CCEA Regulation in England, Wales and Northern Ireland respectively. The qualification has a unique Qualification Number (QN) which is shown below. Each unit within the qualification will also have a regulatory Unit Reference Number (URN).

The QN code will be displayed on the final certificate for the qualification.

Qualification Title	Qualification Number (QN)
BIIAB Level 2 Award in Employee Rights and Responsibilities in the Logistics Industry	601/6848/1 (England) C00/0761/1 (Wales)

Objective and Purpose of this Qualification

The BIIAB Level 2 Award in Employee Rights and Responsibilities in the Logistics Industry has been designed to equip learners with the knowledge and skills about employee rights and responsibilities that are required to work effectively within the logistics industry at level 2.

Achievement of this qualification supports competence to undertake a role in the logistics industry. The primary purpose of the qualification is therefore to confirm occupational competence at level 2.

This qualification, along with Functional Skills and the BIIAB Level 2 Certificate in Warehousing and Storage, are designed to make up the component parts of the Intermediate (Level 2) Apprenticeship in Warehousing and Storage.

As such, this qualification has value either as a stand-alone qualification or as part of an Apprenticeship.

Due to constant regulatory, policy and funding changes users are advised to check this qualification has been placed in the relevant Apprenticeship Framework and / or is funded for use with individual learners before making registrations. If you are unsure about the qualification's status please contact BIIAB head office.

About this Guidance

This guidance has been developed to provide guidance for learners, assessors and quality assurers undertaking, delivering, or quality assuring this qualification.

The purpose of the guidance is to provide the majority of the key information that may be needed to prepare for, and help support, the successful delivery of the qualification, in one place.

If this guidance is updated, centres will be notified by BIIAB Qualifications Limited.

BIIAB Qualifications Limited Customer Service

BIIAB Qualifications Limited is committed to giving the highest possible levels of customer service. Our Service Level Agreement is available via www.biiab.co.uk

Our Customer Service team can be contacted between the hours of 0900 and 1700 Monday to Friday by using the contact details below, or outside those hours, by leaving a message on our voicemail service.

Customer Support Contact Details: 0115 854 1620

Email: CustomerSupport@biiab.co.uk

Our Customer Support team will be happy to assist with any administration related enquiries you may have. For example:
- registration and certification enquiries
- re-certification issues
- centres available in the local area
- appeals
- whistleblowing

What are Rules of Combination (ROC)?

Under the Regulatory Qualifications Framework (RQF), qualifications can be made up of a combination of mandatory and/or optional units. The units and credits required to complete a qualification are set out by the rules of combination (RoC). The RoC allows for flexibility and transferability.

The ROC will specify:

- the total credit value of the qualification
- the amount of credit that must be achieved within specific groups of units (e.g. Mandatory, Optional Unit, and Optional groups)

Qualification Guidance

- the minimum credit which must be achieved at the level or above the level of the qualification
- the Total Qualification Time (TQT)
- the title, Unit Regulation Number and BIIAB Qualifications Limited Unit number for each unit, alongside its level, credit, and Guided Learning Hours (GLH)
- any barred units (units that cannot be taken together as part of the qualification)

When choosing the appropriate route for a learner or group of learners, it is the responsibility of the centre to ensure the rules of combination are adhered to.

BIIAB Level 2 Award in Employee Rights and Responsibilities in the Logistics Industry Rules of Combination (ROC) and Structure

To achieve the BIIAB Level 2 Award in Employee Rights and Responsibilities in the Logistics Industry learners **must** gain a **total of 5 credits**. This **must** consist of:

- **Minimum total** credit: **5**
- Mandatory Group A **minimum** credit: **5**
- Guided Learning hours (GLH): **32** hours
- Total Qualification Time (TQT): **50** hours

The qualification has been developed based upon industry feedback as to the fundamental knowledge and skills required to work in the sector at the level.

Listed below is the qualification unit.

Mandatory Group A

Unit No.	URN	Unit Title	Level	Credit	GLH	Assessment Method
WH61	H/502/9963	Employee Rights and Responsibilities in the Logistics Industry	2	5	32	Assessment Knowledge Module (AKM)

Age Restriction

This qualification is appropriate for use in the following age ranges:

- 16-18
- 19+

Entry Requirements and Progression

There are no entry requirements for these qualifications. However, learners must be assessed to ensure they have a reasonable chance of achievement and will be able to generate the required evidence.

Achievement will allow for a number of progression routes into other areas of learning.

Assessment

Overview of assessment strategy

This qualification is comprised of a knowledge unit. For this qualification, learners are required to complete an Assessment Knowledge Module (AKM) externally set by BIIAB Qualifications Limited. AKMs are internally marked assessments, containing a series of questions, marked and internally verified by the centre and with external verification by the BIIAB External Quality Assurer (EQA).

Assessments provided by BIIAB Qualifications Limited will ensure that effective learning has taken place and that learners have the opportunity to:

- Meet the assessment criteria
- Achieve the learning outcomes.

Centres must obtain approval for any Centre Devised Assessments before their use. Please contact BIIAB Qualifications Limited for details of the Centre Devised Assessment process and procedure.

Assessment Process

Assessment is the process used to judge the competence, of a learner, against set standards.

The assessor is the person who is responsible for determining learners' competence. The assessor may be a work place supervisor or an external person who is trained and qualified, or working towards a qualification relevant to the assessor role.

Qualification Guidance

Assessors base their judgement on performance and decide how it compares to the national standard. The assessor will also ask questions based on the knowledge required to do the work, to ascertain the knowledge and understanding of the learner.

When the required units have been completed and the assessor is satisfied that the learner has met the national standard, a recommendation for a certificate will be made.

An Internal Quality Assurer (IQA) is responsible for the quality assurance of the qualifications within the training organisation and will provide advice, guidance and support to the assessors. IQAs also ensure that the assessors apply the standards consistently and fairly. The IQA will review the portfolio of evidence during the assessment process.

An External Quality Assurer (EQA), who is appointed by BIIAB, will quality assure the assessment and internal quality assurance decisions involved in the development of the portfolio. The EQA will quality assure the qualification process, which ensures that certification of the qualification is reliable, consistent and to the national standard, by checking the consistency of assessments made by the training provider, and across training providers.

Assessment Strategy

The Assessment Strategy has been designed by Skills for Logistics. While BIIAB has not itself designed the strategy it agrees with the principles and their suitability as an Assessment Strategy for this qualification, it has agreed that this strategy will be applied for this qualification and it has agreed that it will monitor the compliance of BIIAB centres offering this qualification against the criteria. As such all centres and their assessment must adhere to the current Skills for Logistics designed assessment strategy for this qualification.

The assessment strategy for this qualification can be seen in the section which follows and it provides details of the key requirements for the qualification and the assessor, verifiers delivering, quality assuring and certificating the qualification. Centres should also refer to the full strategy available at www.skillsforlogistics.org.

Skills for Logistics assessment strategy

Requirements of assessors, external and internal verifiers

Candidates may be assessed, moderated or verified at work either by one or several appointed individuals.

Assessors - The primary responsibility of an assessor is to assess candidates' performance in a range of tasks and to ensure the evidence submitted by the candidate meets the requirements of the assessment criteria. It is important that

an assessor can recognise occupational competence as specified by the national standard. Assessors therefore need to have a thorough understanding of assessment and quality assurance practices, as well as have in-depth technical understanding related to the qualifications for which they are assessing candidates. To be able to assess candidates, assessors must:

- hold an appropriate qualification, as specified by the appropriate regulatory authority, confirming their competence to assess candidates undertaking competence-based units and qualifications. Assessors holding older qualifications must be able to demonstrate that they are assessing to the current standards;

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. Any assessors working towards an appropriate qualification must ensure their decisions are countersigned by a suitably-qualified assessor/verifier and should be supported by a qualified assessor throughout their training period.

- be 'occupationally competent'. Assessors must provide current evidence of competence, knowledge and understanding in the areas to be assessed. This will normally be achieved through demonstrating competence in the roles which are to be assessed, or demonstrated by relevant experience and continuing professional development (CPD) which may include the achievement of qualifications relevant to the areas being assessed.

- have a full and current understanding of the units of competence and requirements of the qualifications being assessed, including the quality of assessment and the assessment process. It is the responsibility of approved centres to select and appoint assessors.

Expert Witnesses - Witnesses don't have to be "expert". They can be drawn from a wide range of people who can attest to the candidate's performance in the workplace, such as line managers, experiences workplace colleagues, customers or clients. They need to:

- provide a written statement about the quality and authenticity of the candidate's work
- have first-hand experience of the candidate's performance and understanding

As the assessment decision lies with the Assessor, it is their responsibility to verify this and, where challenged, to justify their acceptance of third party 'witness testimony' to the Internal Quality Assurer.

Internal Quality Assurer (IQA) - A primary responsibility of IQAs is to assure the quality and consistency of assessments by the assessors for whom they are responsible. IQAs therefore need to have a thorough understanding of quality

assurance and assessment practices, as well as sufficient technical understanding related to the qualifications that they are internally verifying. It will be the responsibility of the approved centre to select and appoint IQA's.

IQAs **must**:

- hold an appropriate qualification, as specified by the appropriate regulatory authority, confirming their competence to internally verify competence-based assessments and candidates. IQAs holding older qualifications must be able to demonstrate that they are verifying to the current standards

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. If an IQA is working towards an appropriate qualification, his/her decisions must be countersigned by a suitably qualified IQA and should be supported by a qualified IQA throughout the training period.

- be 'occupationally competent'. IQAs must demonstrate sufficient and current understanding of the qualifications to be internally verified, and know how they are applied in business.

- demonstrate competent practice in internal verification of assessment, and demonstrate understanding of the principles and practices of internal verification of assessment, including the quality of assessment and the assessment process.

External Quality Assurer (EQA) - The primary responsibility of EQAs is to assure quality of internal verification and assessments across the centres for which they are responsible. EQAs must have a thorough understanding of quality assurance and assessment practices, as well as in-depth technical knowledge related to the qualifications that they are externally verifying.

EQAs **must**:

- hold an appropriate qualification as specified by the appropriate regulatory authority, confirming their competence to verify competence-based assessments. EQAs holding older qualifications must be able to demonstrate that they are verifying to the current standards;

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. If EQAs are working towards an appropriate qualification, their decisions must be countersigned by a suitably qualified EQA and should be supported by a qualified EQA throughout their training period.

- be 'occupationally competent'. EQAs must demonstrate sufficient and current understanding of the qualifications to be verified, and know how they are applied in business.

- demonstrate competent practice in external verification of assessment, and demonstrate understanding of the principles and practices of external verification of assessment, including the quality of assessment and the assessment process. It is the responsibility of the awarding organisation to select and appoint EQAs.

Awarding organisations require all assessors, moderators and verifiers to maintain current competence to deliver these functions. BIIAB recognises this can be achieved in many ways. However, such information **must** be formally recorded in individual CPD records that are maintained in assessment centres.

Evidence from Workplace Performance

- Evidence of occupational competence of all competence units at any level, should be generated and collected through performance under workplace conditions. This includes the knowledge-based learning outcomes and assessment criteria of the competence units.

- These conditions would be those typical to the candidate's normal place of work. The evidence collected under these conditions should also be as naturally occurring as possible. It is accepted that not all employees have identical workplace conditions and therefore there cannot be assessment conditions that are identical for all candidates. However, assessors must ensure that, as far as possible, the conditions for assessment should be those under which the candidate usually works.

Simulation

- Evidence may be produced through simulation solely in exceptional circumstances. The exceptional circumstances, under which simulation is possible are:
  - where a learner is required to complete a work activity that does not occur on a regular basis and therefore opportunities to complete a particular work activity do not easily arise
  - a learner is required to respond to a situation that rarely occurs, such as responding to an emergency situation
  - the safety of the learner and/or resources would be put at risk.
- Learners should be enabled to complete, wherever possible, real work activities that provide both evidence of underpinning knowledge and evidence of competence to demonstrate they have met the learning outcomes and assessment criteria of the unit and that they are competent in relation to the National Occupational Standards.
- When simulation is used, those who assess the learner should be confident that the simulation replicates the workplace to such an extent

that they will be able to fully transfer their occupational competence to the workplace and real situations.

Appeals

If learners are dissatisfied with an assessment outcome, they have the right to appeal. The main reasons for an appeal are likely to be:

- Learners do not understand why they are not yet regarded as competent, because of unsatisfactory feedback from the assessor

- Learners believe they are competent and that the assessor has misjudged them, or has failed to utilise some vital evidence

BIIAB Qualifications Limited expects most appeals from learners to be resolved within the centre. BIIAB Qualifications Limited will only consider a learner's appeal after the centre's internal appeals procedure has been fully exhausted.

For full details of the BIIAB Qualifications Limited's appeals procedure please refer to https://biiab.co.uk/policies-and-procedures/

Initial Assessment and Induction

Prior to the start of any programme it is recommended that centres should make an initial assessment of each learner. This is to ensure that the learners are entered for an appropriate type and level of qualification.

The initial assessment should identify the specific training needs that the learner has, and the support and guidance that they may require when working towards their qualification.

The centre must also identify any units the learner has already completed, or credits they have accumulated, relevant to the qualification.

BIIAB Qualifications Limited suggests that centres provide an induction programme to ensure the learner fully understands the requirements of the qualification they will work towards, their responsibilities as a learner, and the responsibilities of the centre.

Resources

BIIAB Qualifications Limited provides the following additional resources for this qualification:

- An Assessment Knowledge Module (AKM)
- Assessment Guidance for the AKM

Qualification Guidance

- A Learner Summative Reflection
- Access to the units

All of these resources are available on request.

Assessment Knowledge Modules (AKMs)

These provide a series of BIIAB Qualifications Limited set questions within the context of knowledge modules that can be used to assess the learners competence. These modules should be released to the learner for the assessment when they are determined to be ready to be able to successfully achieve it. The assessment does not have to be undertaken within secure conditions, but must be collected and held securely afterwards. Learners must be taught to the Learning Outcomes and Assessment Criteria within the unit not the assessment. A password will be provided to allow access this document upon approval for the qualification. These are internally marked and verified but must be available to the EQA for external verification purposes.

Assessment Guidance for each of the AKMs

These provide a series of BIIAB Qualifications Limited suggested possible answers for the questions within the knowledge modules. Assessors can accept other appropriate answers. These modules must be kept secure, only released to the learner for the assessment and collected and held securely afterwards. Learners must be taught to the Learning Outcomes and Assessment Criteria within the unit not to the possible answers of the assessment. A password will be provided to allow access this document upon approval for the qualification.

Access to the Units

Units form the qualification and the standard that **must** be achieved in order to be awarded each unit. This is covered within the learning outcomes, assessment criteria and the indicative content that form part of the delivery. BIIAB Qualifications Limited includes the mandatory units within this guidance document.

Learner Summative Reflection

In order to claim the unit(s) for the qualification, the learner will need to complete a learner summative reflection, to reflect on their qualification, what they have learnt and how they have been able to apply this within their work role.

Design and Delivery

Centres must refer to the units that form the qualification and the standard that must be achieved in order to be awarded each unit. This is covered within the learning outcomes and assessment criteria that forms part of the delivery.

Each unit within this qualification has been allocated a number of Guided Learning hours (GL).

This can include activities such as training/class room based sessions, tutorials, supervised study or supervised 'on-the-job' learning and face-to-face or other pre-arranged 1:1 teaching sessions (e.g. simultaneous electronic communication such as webcam contact or internet messaging). It could also include time spent undertaking assessments.

The qualification will be assigned Total Qualification Time (TQT), which, as well as GL, will include the estimated number of hours spent in preparation, study or any other supervised learning, study or assessment for an average learner. When planning how to deliver the qualification it is important to refer to this definition.

BIIAB Qualifications Limited will not prescribe how the qualification is delivered, but centres must ensure the delivery chosen meets their learners' needs.

Format of Units

All units within this qualification will be presented in a standard format that is consistent with the format for all units of assessment. The format will give tutors and learners guidance as to the requirements of the unit for successful completion. Each unit within this guidance document will be in the format below:

Unit Title

This will be shown as it appears on the Register of Regulated Qualifications (http://register.ofqual.gov.uk).

Unit Number / Unit Reference Number (URN)

The Unit Reference Number is the unique code that the unit is given by the Regulator. This unit will be referenced on the final qualification certificate. The same unique code for the unit applies in whichever qualification the unit is

included within. BIIAB Qualifications Limited also assign unique unit numbers which is consistent when the unit is used in multiple BIIAB qualifications.

Level

This identifies the level of demand for the unit, but may be a different level to that of the overall qualification. The level of the units will be set according to National Occupational Standards and the level descriptors.

Credit

When a whole unit is completed the learner will achieve credits specified by the number of hours' learning time it will take an average learner to complete the unit including the assessment.

Guided Learning Hours (GLH)

The required number of hours that learning should take place under the immediate guidance or supervision of a lecturer, supervisor, tutor or other appropriate provider of education or training.

Total Qualification Time (TQT)

Total Qualification Time (TQT) is defined by Ofqual as the number of notional hours which represents an estimate of the total amount of time that could reasonably be expected to be required in order for a Learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of a qualification. TQT is comprised of the following two elements:

- The number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- An estimate of the number of hours a Learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but, unlike Guided Learning, not under the Immediate Guidance or Supervision
of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

TQT is always assigned to the qualification however a similar calculation may on occasions also be assigned to a unit.

Qualification Guidance

Learning Outcomes and Assessment Criteria

Learning Outcomes are what the learner is expected to know, understand or be able to do upon successful completion of the unit.

Assessment Criteria are descriptions of the requirements that a learner is expected to meet in order to demonstrate that a learning outcome has been achieved.

Initial Registration

Registration and Certification

Learners should be registered and certificated via BIIAB Qualifications Limited's Customer Management System.

Equal Opportunities and Diversity Policy

BIIAB Qualifications Limited has in place an equal opportunities policy, a copy can be found at https://www.biiab.co.uk/policies-and-procedures/

BIIAB Qualifications Limited is committed to ensure that:

- approved centres operate an equal opportunities policy
- approved centres communicate the policy to staff and learners
- approved centres have an effective complaints and appeals procedure of which both staff and learners are made aware
- approved centres are aware of their responsibilities in providing equality of opportunity, particularly with regard to provision for learners with particular assessment requirements

Reasonable Adjustment Policy

Learners who require reasonable adjustments for their assessments must inform their assessor at the beginning of their course of their requirements. BIIAB Qualifications Limited has a reasonable adjustment policy in place, a copy of which is provided to all approved centres and can be found at https://www.biiab.co.uk/policies-and-procedures/

Qualification Review and Feedback

BIIAB Qualifications Limited is committed to the ongoing review of this qualification to ensure it remains fit for purpose.

This review approach involves the collation of evidence in the form of any information, comments and complaints received from users of this qualification in relation to its development, delivery and award.

BIIAB Qualifications Limited will give due regard to any credible evidence received which suggests that a change in approach to the development, delivery and award of this qualification is required in order to ensure that no adverse effects will result. This qualification will be periodically reviewed and revised to ensure the content remains relevant, assessment approach remains appropriate and that it remains valid and fit for purpose.

Mandatory Unit

The following unit is mandatory for this qualification.

Qualification Guidance

Employee Rights and Responsibilities in the Logistics Industry

Unit Reference	H/502/9963
BIIAB Reference	WH61
Level	2
Credit Value	5
Guided Learning (GL)	32
Unit Summary	The purpose of this unit is to provide the learner with the knowledge on employee rights and responsibilities in the Logistics Industry.
Learning Outcomes (1 to 6) The learner will:	**Assessment Criteria (1.1 to 6.1)** The learner can:
1. Know the employee rights and responsibilities in the logistics industry	1.1 Describe own work role in your organisation 1.2 Describe the statutory rights and responsibilities relating to own job role 1.3 Describe organisational policies and procedures in relation to own job role 1.4 Describe the main components of own contract of employment
2. Understand the role of the logistics organisation in employment rights and responsibilities	2.1 Identify the rights and responsibilities of the organisation 2.2 Identify problems that can occur when working to the employment rights and responsibilities of the organisation 2.3 Explain the appropriate action to take in order to deal with identified problems
3. Understand the use of information in relation to employment	3.1 Describe the main components of a pay slip 3.2 Review own pay slip for accuracy 3.3 Review key information contained in own contract of employment

	3.4 Explain the importance of information held on your own personnel file
	3.5 Identify the nominated person responsible for health and safety in your own workplace
	3.6 Describe sources of advice and information in relation to employment rights and responsibilities
4. Know sources of information in relation to employment rights and responsibilities	4.1 Explain different types of representative bodies
	4.2 Explain organisational policies and procedures that relate to employment rights and responsibilities
	4.3 Describe the sources of advice and information in relation to employment rights and responsibilities to include: • access to work • additional learning and support • career pathways • training opportunities • health, safety and security • trade unions
	4.4 Select internal and external sources of information that are valid and reliable
5. Comply with employment rights and responsibilities in the workplace	5.1 Follow statutory requirements and organisational policies and procedures that relate to own job role including: • health, safety and security • personal protective equipment • equality, diversity and harassment • data protection • working hours • safeguarding

6. Understand public concerns about the logistics sector	6.1 Describe issues of public concern that may affect your own organisation and the wider industry including • environmental issues • low carbon agenda

Additional Assessment Requirements specified by a sector or regulatory body	
Learning Outcome 1: Assessment Criterion 1.2 relates to:	• contract of employment • grievance and disciplinary procedures • absence procedures • health, safety and security • personal protective equipment • equality, diversity and harassment • data protection • safeguarding
