About the BIIAB Level 3 Diploma for Residential Childcare

BIIAB Qualifications Limited is regulated to deliver this qualification by Ofqual in England. The qualification has a unique Qualification Number (QN) which is shown below. Each unit within the qualification will also have a regulatory Unit Reference Number (URN).

The QN code will be displayed on the final certificate for the qualification.

Qualification Title	Qualification Number (QN)

Objective and Purpose of this Qualification

The content of the BIIAB Level 3 Diploma for Residential Childcare has been specified by the sector skills council Skills for Care, in consultation with employers, learning providers and those who use services in the Residential Childcare sector.

This qualification constitutes part of the children's homes regulations which came into force in April 2015. This qualification will develop and assess the knowledge, skills and behaviours needed to effectively work with children and young people in a residential childcare establishment.

The qualification has core shared knowledge and skills that support the vision of the Government and employers providing integrated services and the portability of skills and knowledge across the residential childcare workforce.

As such, the content of the qualification is applicable to a variety of roles, for example:

- Residential Childcare Worker
- Support Worker – Residential Childcare
- Residential Childcare Officer
- Childcare Practitioner

It is designed specifically for those working in Residential Childcare, and while many of the skills, knowledge and behaviours are transferable, those working in, or planning to work in, non-residential childcare settings should select the most appropriate of one of the following qualifications:

Qualification Guidance

- BIIAB Level 2 Certificate for Children and Young People's Workforce (England) 601/7784/6
- BIIAB Level 2 Diploma for the Early Years Practitioner 603/5227/9
- BIIAB Level 3 Diploma for the Children and Young People's Workforce (England) 601/7785/8
- BIIAB Level 3 Diploma in Children's Learning and Development (Early Years Educator) 601/7786/X

This qualification has been designed to allow learners to obtain and then demonstrate the knowledge and skills required to work effectively and flexibly within the Residential Childcare sector at level 3.

The primary purpose of the qualification is to confirm occupational competence.

The Children, Young People and Families Practitioner apprenticeship standard requires achievement of one of two optional pathways. This qualification is a mandatory component for Option 1: Practitioner in Children's Residential Care.

As such, this qualification has value either as a stand-alone qualification or as part of an Apprenticeship.

Due to constant regulatory, policy and funding changes users are advised to check this qualification has been placed in the relevant Apprenticeship Framework and / or is funded for use with individual learners before making registrations. If you are unsure about the qualification's status please contact BIIAB head office.

About this Guidance

This guidance has been developed to provide guidance for learners, assessors and quality assurers undertaking, delivering, or quality assuring this qualification.

The purpose of the guidance is to provide the majority of the key information that may be needed to prepare for, and help support, the successful delivery of the qualification, in one place.

If this guidance is updated, centres will be notified by BIIAB Qualifications Limited.

What are Rules of Combination (ROC)?

Under the Regulatory Qualifications Framework (RQF), qualifications can be made up of a combination of mandatory and/or optional units. The units and credits required to complete a qualification are set out by the rules of combination (RoC). The RoC allows for flexibility and transferability.

The ROC will specify:

- the total credit value of the qualification
- the amount of credit that must be achieved within specific groups of units (e.g. Mandatory, Optional Unit, and Optional groups)
- the minimum credit which must be achieved at the level or above the level of the qualification
- the Total Qualification Time (TQT)
- the title, Unit Regulation Number and BIIAB Qualifications Limited Unit number for each unit, alongside its level, credit, and Guided Learning Hours (GLH)
- any barred units (units that cannot be taken together as part of the qualification)

When choosing the appropriate route for a learner or group of learners, it is the responsibility of the centre to ensure the rules of combination are adhered to.

Entry Requirements and Progression

There are no entry requirements for this qualification. However, learners must be assessed to ensure they have a reasonable chance of achievement and will be able to generate the required evidence.

The qualification is designed to equip learners with the opportunity to demonstrate competence in order to work effectively within Childcare at this level.

Qualification Guidance

Achievement of the qualification offers opportunities for progression, including BIIAB Level 5 Diploma in Leadership for Health and Social Care and Children and Young People's Services (England) (601/6855/9).

Assessment

Overview of assessment strategy

The qualification contains competence units and units that combine competence and knowledge. Competence units are assessed following NVQ principles and require learners to build a portfolio of evidence, which will demonstrate competence by various means including observation by an assessor.

Assessment Process

Assessment is the process used to judge the competence, of a learner, against set standards. The assessor is the person who is responsible for determining learners' competence. The assessor may be a work place supervisor or an external person who is trained and qualified, or working towards a qualification relevant to the assessor role.

Assessors base their judgement on performance and decide how it compares to the national standard. The assessor will also ask questions based on the knowledge required to do the work, to ascertain the knowledge and understanding of the learner.

When the required units have been completed and the assessor is satisfied that the learner has met the national standard, a recommendation for a certificate will be made.

An Internal Quality Assurer (IQA) is responsible for the quality assurance of the qualifications within the training organisation and will provide advice, guidance and support to the assessors. IQAs also ensure that the assessors apply the standards consistently and fairly. The IQA will review the portfolio of evidence during the assessment process.

An External Quality Assurer (EQA), who is appointed by BIIAB, will quality assure the assessment and internal quality assurance decisions involved in the development of the portfolio. The EQA will quality assure the qualification process, which ensures that certification of the qualification is reliable, consistent and to the national standard, by checking the consistency of assessments made by the training provider, and across training providers.

Assessment Strategy

The Assessment Strategy for this qualification has been designed by Skills for Care; the UK sector skills council (SSC) for social care, children, early years and young people. While BIIAB has not itself designed the strategy, it agrees with the

Qualification Guidance

principles and their suitability as an Assessment Strategy for this qualification, it has agreed that this strategy will be applied for this qualification and it has agreed that it will monitor the compliance of BIIAB centres offering this qualification against the criteria. Use of this strategy helps to ensure consistent assessment of Childcare qualifications by different Awarding Organisations as well as consistency of assessment of Childcare qualifications in other nations; aiding transferability. As such all centres and their assessment must adhere to the current Assessment Principles for this qualification.

The assessment strategy for this qualification can be seen in the section which follows and it provide details of the key requirements for the qualification and the assessor, verifiers delivering, quality assuring and certificating the qualification.

Skills for Care and Development Assessment Principles – March 2016

1 Introduction

- 1.1 Skills for Care and Development (SfC&D) is the UK sector skills council (SSC) for social care, children, early years and young people. Its structure for realising the SSC remit is via a partnership of four organisations: Care Council for Wales, Northern Ireland Social Care Council, Scottish Social Services Council and Skills for Care (adult social care only).
- 1.2 This document sets out the minimum expected principles and approaches to assessment, and should be read alongside qualification regulatory arrangements and any specific requirements set out for particular qualifications. Additional information and guidance regarding assessment can be obtained from Awarding Organisations and from SfC&D partner organisations¹.
- 1.3 The information is intended to support the quality assurance processes of Awarding Organisations that offer qualifications in the Sector.
- 1.4 Where Skills for Care and Development qualifications are jointly supported with Skills for Health, Skill for Health assessment principles should also be considered:
<http://www.skillsforhealth.org.uk/images/standards/qcf/Assessment%20of%20Competence%20-%20Skills%20for%20Health%20Assessment%20Principles.pdf>
- 1.5 Throughout this document the term unit is used for simplicity, but this can mean module or any other similar term.
- 1.6 In all work we would expect assessors to observe and review learners practising core values and attitudes required for quality practice. These include embracing dignity and respect, rights, choice, equality, diversity,

¹ See Appendix A for links to SfC&D partner organisations' websites

Qualification Guidance

inclusion, individuality and confidentiality. All learners should follow the appropriate standards for conduct and all those involved in any form of assessment must know and embrace the values and standards of practice set out in these documents.

- 1.7 Assessors should ensure that the voices and choices of people who use services drive their practice and that of their learner. This will be apparent throughout the evidence provided for a learner's practice.

2 Assessment Principles

Good practice dictates the following:

- 2.1 Learners must be registered with the Awarding Organisation before formal assessment commences.
- 2.2 Assessors must be able to evidence and justify the assessment decisions that they have made.
- 2.3 Assessment decisions for skills based learning outcomes must be made during the learner's normal work activity by an occupationally qualified², competent and knowledgeable assessor.
- 2.4 Skills based assessment must include direct observation as the main source of evidence, and must be carried out over an appropriate period of time. Evidence should be naturally occurring and so minimise the impact on individuals who use care and support, their families and carers.
- 2.5 Any knowledge evidence integral to skills based learning outcomes may be generated outside of the work environment, but the final assessment decision must show application of knowledge within the real work environment important for those learners who work unsupervised, but who have contact with a range of different professionals in the course of their work activities.
- 2.6 Assessment decisions for skills based learning outcomes must be made by an assessor qualified to make assessment decisions. It is the responsibility of the Awarding Organisation to confirm that their assessors are suitably qualified to make assessment decisions.
- 2.7 Simulation may not be used as an assessment method for skills based learning outcomes except where this is specified in the assessment requirements. In these cases, the use of simulation should be restricted to obtaining evidence where the evidence cannot be generated through normal work activity. Video or audio recording should not be used where this compromises the privacy, dignity or confidentiality of any individual or family using services.

² See Appendix B for links to guidance on qualifications for occupational competence in UK nations

Qualification Guidance

- 2.8 Where the assessor is not occupationally competent in a specialist area, expert witnesses can be used for direct observation where they have occupational expertise in the specialist area. The use of expert witnesses should be determined and agreed by the assessor, in line with internal quality assurance arrangements and Awarding Organisation requirements for assessment of units within the qualification and the sector. The assessor remains responsible for the final assessment decision.
- 2.9 Where an assessor is occupationally competent but not yet qualified as an assessor, assessment decisions must rest with a qualified assessor. This may be expressed through a robust countersigning strategy that supports and validates assessment decisions made by as yet unqualified assessors, until the point where they meet the requirements for qualification.
- 2.10 Witness testimony from others, including those who use services and their families, can enrich assessment and make an important contribution to the evidence used in assessment decisions.
- 2.11 Assessment of knowledge based learning outcomes:
- may take place in or outside of a real work environment
 - must be made by an occupationally qualified and knowledgeable assessor, qualified to make assessment decisions
 - must be robust, reliable, valid and current; any assessment evidence using pre-set automated tests, including e-assessment portfolios, must meet these requirements and can only contribute to overall decisions made by the assessor
- 2.12 It is the responsibility of the Awarding Organisation to ensure that those involved in assessment can demonstrate their continuing professional development, up to date skills, knowledge and understanding of practice at or above the level of the unit.
- 2.13 Regardless of the form of recording used for assessment evidence, the guiding principle must be that evidence gathered for assessment must comply with policy and legal requirements in relation to confidentiality and data protection. Information collected must be traceable for internal and external verification purposes. Additionally assessors must ensure they are satisfied the evidence presented is traceable, auditable and authenticated and meets assessment principles.

3 Quality Assurance

- 3.1 Internal quality assurance is key to ensuring that the assessment of evidence is of a consistent and appropriate quality. Those carrying out internal quality assurance must be occupationally knowledgeable in the unit they are assuring and be qualified to make quality assurance decisions. It is the responsibility of the Awarding Organisation to confirm that those involved in internal quality assurance are suitably qualified for this role.

Qualification Guidance

- 3.2 Those involved in internal quality assurance must have the authority and the resources to monitor the work of assessors. They have a responsibility to highlight and propose ways to address any challenges in the assessment process (e.g. to ensure suitable assessors are assigned to reflect the strengths and needs of particular learners).
- 3.3 Those carrying out external quality assurance must be occupationally knowledgeable and understand the policy and practice context of the qualifications in which they are involved. It is the responsibility of the Awarding Organisation to confirm that those involved in external quality assurance are suitably qualified for this role.
- 3.4 Those involved in external quality assurance have a responsibility to promote continuous improvement in the quality of assessment processes.

4 Definitions

- 4.1 **Occupationally competent:** This means that each assessor must be capable of carrying out the full requirements of the area they are assessing. Occupational competence may be at unit level for specialist areas: this could mean that different assessors may be needed across a whole qualification while the final assessment decision for a qualification remains with the lead assessor. Being occupationally competent means also being occupationally knowledgeable. This occupational competence should be maintained annually through clearly demonstrable continuing learning and professional development.
- 4.2 **Occupationally knowledgeable:** This means that each assessor should possess knowledge and understanding relevant to the qualifications and / or units they are assessing. Occupationally knowledgeable assessors may assess at unit level for specialist areas within a qualification, while the final assessment decision for a qualification remains with the lead assessor. This occupational knowledge should be maintained annually through clearly demonstrable continuing learning and professional development.
- 4.3 **Qualified to make assessment decisions:** This means that each assessor must hold a qualification suitable to support the making of appropriate and consistent assessment decisions. Awarding Organisations will determine what will qualify those making assessment decisions according to the unit of skills under assessment. The Joint Awarding Body Quality Group maintains a list of assessor qualifications, see Appendix B.
- 4.4 **Qualified to make quality assurance decisions:** Awarding Organisations will determine what will qualify those undertaking internal and external quality assurances to make decisions about that quality assurance.
- 4.5 **Expert witness:** An expert witness must:
- have a working knowledge of the units for which they are providing expert testimony

Qualification Guidance

- be occupationally competent in the area for which they are providing expert testimony
- have EITHER any qualification in assessment of workplace performance OR a work role which involves evaluating the everyday practice of staff within their area of expertise.

4.6 Witness testimony: Witness testimony is an account of practice that has been witnessed or experienced by someone other than the assessor and the learner. Witness testimony has particular value in confirming reliability and authenticity, particularly in the assessment of practice in sensitive situations. Witness testimony provides supporting information for assessment decisions and should not be used as the only evidence of skills.

Appeals

If learners are dissatisfied with an assessment outcome, they have the right to appeal. The **main** reasons for an appeal are likely to be:

- Learners do not understand why they are not yet regarded as competent, because of unsatisfactory feedback from the assessor
- Learners believe they are competent and that the assessor has misjudged them, or has failed to utilise some vital evidence

BIIAB Qualifications Limited expects most appeals from learners to be resolved within the centre. BIIAB Qualifications Limited will only consider a learner's appeal after the centre's internal appeals procedure has been fully exhausted.

For full details of the BIIAB Qualifications Limited's appeals procedure please refer to <https://biiab.co.uk/policies-and-procedures/>

Initial Assessment and Induction

Prior to the start of any programme it is recommended that centres should make an initial assessment of each learner. This is to ensure that the learners are entered for an appropriate type and level of qualification.

The initial assessment should identify the specific training needs that the learner has, and the support and guidance that they may require when working towards their qualification.

The centre must also identify any units the learner has already completed, or credits they have accumulated, relevant to the qualification.

BIIAB Qualifications Limited suggests that centres provide an induction programme to ensure the learner fully understands the requirements of the qualification they will work towards, their responsibilities as a learner, and the responsibilities of the centre.

Qualification Guidance

Resources

BIIAB Qualifications Limited provides the following additional resources for this qualification:

- Evidence matrixes for the competence units
- A Learner Summative Reflection
- Access to the units

All of these resources are available on request.

Access to the Units

Units form the qualification and the standard that **must** be achieved in order to be awarded each unit. This is covered within the learning outcomes, assessment criteria and the indicative content that form part of the delivery. BIIAB Qualifications Limited includes the mandatory units within this guidance document.

Learner Summative Reflection

In order to claim the unit(s) for the qualification, the learner will need to complete a learner summative reflection, to reflect on their qualification, what they have learnt and how they have been able to apply this within their work role.

Design and Delivery

Centres must refer to the units that form the qualification and the standard that must be achieved in order to be awarded each unit. This is covered within the learning outcomes and assessment criteria that forms part of the delivery.

Each unit within this qualification has been allocated a number of Guided Learning hours (GL).

This can include activities such as training/class room based sessions, tutorials, supervised study or supervised 'on-the-job' learning and face-to-face or other pre-arranged 1:1 teaching sessions (e.g. simultaneous electronic communication such as webcam contact or internet messaging). It could also include time spent undertaking assessments.

The qualification will be assigned Total Qualification Time (TQT), which, as well as GL, will include the estimated number of hours spent in preparation, study or any other supervised learning, study or assessment for an average learner.

Qualification Guidance

When planning how to deliver the qualification it is important to refer to this definition.

BIIAB Qualifications Limited will not prescribe how the qualification is delivered, but centres must ensure the delivery chosen meets their learners' needs.

Format of Units

All units within this qualification will be presented in a standard format that is consistent with the format for all units of assessment. The format will give tutors and learners guidance as to the requirements of the unit for successful completion. Each unit within this guidance document will be in the format below:

Unit Title

This will be shown as it appears on the Register of Regulated Qualifications (<http://register.ofqual.gov.uk>).

Unit Number / Unit Reference Number (URN)

The Unit Reference Number is the unique code that the unit is given by the Regulator. This unit will be referenced on the final qualification certificate. The same unique code for the unit applies in whichever qualification the unit is included within. BIIAB Qualifications Limited also assign unique unit numbers which is consistent when the unit is used in multiple BIIAB qualifications.

Level

This identifies the level of demand for the unit, but may be a different level to that of the overall qualification. The level of the units will be set according to National Occupational Standards and the level descriptors.

Credit

When a whole unit is completed the learner will achieve credits specified by the number of hours' learning time it will take an average learner to complete the unit including the assessment.

Qualification Guidance

Guided Learning Hours (GLH)

The required number of hours that learning should take place under the immediate guidance or supervision of a lecturer, supervisor, tutor or other appropriate provider of education or training.

Total Qualification Time (TQT)

Total Qualification Time (TQT) is defined by Ofqual as the number of notional hours which represents an estimate of the total amount of time that could reasonably be expected to be required in order for a Learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of a qualification. TQT is comprised of the following two elements:

- The number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- An estimate of the number of hours a Learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but, unlike Guided Learning, not under the Immediate Guidance or Supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

TQT is always assigned to the qualification however a similar calculation may on occasions also be assigned to a unit.

Learning Outcomes and Assessment Criteria

Learning Outcomes are what the learner is expected to know, understand or be able to do upon successful completion of the unit.

Assessment Criteria are descriptions of the requirements that a learner is expected to meet in order to demonstrate that a learning outcome has been achieved.

Initial Registration

Registration and Certification

Learners should be registered and certificated via BIIAB Qualifications Limited's Customer Management System.

Qualification Guidance

Equal Opportunities and Diversity Policy

BIIAB Qualifications Limited has in place an equal opportunities policy, a copy can be found at <https://www.biiab.co.uk/policies-and-procedures/>

BIIAB Qualifications Limited is committed to ensure that:

- approved centres operate an equal opportunities policy
- approved centres communicate the policy to staff and learners
- approved centres have an effective complaints and appeals procedure of which both staff and learners are made aware
- approved centres are aware of their responsibilities in providing equality of opportunity, particularly with regard to provision for learners with particular assessment requirements

Reasonable Adjustment Policy

Learners who require reasonable adjustments for their assessments must inform their assessor at the beginning of their course of their requirements. BIIAB Qualifications Limited has a reasonable adjustment policy in place, a copy of which is provided to all approved centres and can be found at <https://www.biiab.co.uk/policies-and-procedures/>

Qualification Review and Feedback

BIIAB Qualifications Limited is committed to the ongoing review of this qualification to ensure it remains fit for purpose.

This review approach involves the collation of evidence in the form of any information, comments and complaints received from users of this qualification in relation to its development, delivery and award.

BIIAB Qualifications Limited will give due regard to any credible evidence received which suggests that a change in approach to the development, delivery and award of this qualification is required in order to ensure that no adverse effects will result. This qualification will be periodically reviewed and revised to ensure the content remains relevant, assessment approach remains appropriate and that it remains valid and fit for purpose.
