BIIAB Level 2 Award in Awareness of Spiking

Level 2 Award – 610/4647/4

About Us

BIIAB Qualifications Limited is part of Skills and Education Group, a charitable organisation that champions education and skills-oriented organisations, providers and learners, making real change locally, nationally and internationally.

BIIAB Qualification Limited has an on-line registration system to help customers register learners on its qualifications, units and exams. In addition it provides features to view exam results, invoices, mark sheets and other information about learners already registered.

Sources of Additional Information

The BIIAB Qualifications Limited website www.biiab.co.uk provides access to a wide variety of information.

About the BIIAB Level 2 Award in Awareness in Spiking

BIIAB is regulated to deliver this qualification by Ofqual in England respectively. The qualification has a unique Qualification Number (QN) which is shown below. Each unit within the qualification will also have a regulatory Unit Reference Number (URN)

The QN code will be displayed on the final certificate for the qualification.

Qualification	Qualification Number (QN)
BIIAB Level 2 Award in Awareness of Spiking	610/4647/4

Objective and Purpose of this Qualification

This qualification, developed in collaboration with Stamp Out Spiking, aims to provide learners with the essential knowledge and skills to protect themselves and others from the dangers and consequences of spiking. Learners will gain a deeper understanding of spiking incidents, how to identify potential risks, and effective strategies to prevent and respond to such situations. The course emphasises personal and communal safety, empowering individuals to contribute to a safer environment in social settings

About this Guidance

This qualification has been developed to provide guidance for learners, assessors and quality assurers undertaking, delivering, or quality assuring this qualification.

The purpose of the guidance is to provide the majority of the key information that may be needed to prepare for, and help support, the successful delivery of the qualification, in one place.

If this guidance is updated, centres will be notified by BIIAB Qualifications Limited.

BIIAB Qualifications Limited Customer Service

BIIAB Qualifications Limited is committed to giving the highest possible levels of customer service. Our service Level Agreement is available via www.biiab.co.uk

Our Customer Service team can be contacted between the hours of 0900 and 1700 Monday to Friday by using the contact details below, or outside those hours, by leaving a message on our voicemail service.

Customer Support Contact Details: 0115 854 1620

Email: CustomerSupport@biiab.co.uk

Our Customer Support team will be happy to assist with any administration related enquiries you may have. For example:

- registration and certification enquiries.
- re-certification issues.
- centres available in the local area.
- appeals.
- whistleblowing.

What are Rules of Combination (RoC)?

Under the Regulatory Qualifications Framework (RQF), qualifications can be made up of a combination of mandatory and/or optional units. The units and credits required to complete a qualification are set out by the rules of combination (RoC). The RoC allows for flexibility and transferability.

The ROC will specify:

- the total credit value of the qualification.
- the amount of credit that must be achieved within specific groups of units (e.g. Mandatory, Optional Unit, and Optional groups).
- the minimum credit which must be achieved at the level or above the level of the qualification.
- the Total Qualification Time (TQT).
- the title, Unit Regulation Number and BIIAB Qualifications Limited Unit number for each unit, alongside its level, credit, and Guided Learning Hours (GLH).
- any barred units (units that cannot be taken together as part of the qualification).

When choosing the appropriate route for a learner or group of learners, it is the responsibility of the centre to ensure the rules of combination are adhered to.

BIIAB Level 2 Award Awareness of Spiking

To achieve the BIIAB Level 2 Award Awareness in Spiking learners **must** gain a **total of 3** credits. This **must** consist of:

- **Minimum total** credits: **3**
- A **minimum of 3** credits **must** be achieved through the completion of units at **Level 2** and above
- GLH: **24**
- TQT: **30**

The qualification has been developed based upon industry feedback as the fundamental knowledge required to work in the sector at the level.

Listed below are the qualification units.

Mandatory Unit Group A.

Unit No.	URN	Unit Title	Level	Credit	GLH	Assessment Method
1	L/651/2800	Awareness of spiking	2	3	24	Portfolio of evidence

Age Restrictions

The qualification in this handbook is appropriate for use in the following age ranges:

- 16+
- 19+

Entry Requirements and Progression

There are no entry requirements for this qualification. However, learners must be assessed to ensure they have a reasonable chance of achievement and will be able to generate the required evidence.

Achievement of the qualification for other progression opportunities, please visit the Skills and Education Group and BIIAB website.

Overview of assessment strategy

The qualification contains one knowledge unit. The unit is assessed via either portfolio of evidence or the optional learner workbook provided by BIIAB, specifically designed for this qualification.

Evidence for this qualification will be internally assessed by the centre and externally verified by BIIAB Qualifications Limited. Assessments provided by BIIAB Qualifications Limited will ensure that effective learning has taken place and that learners have the opportunity to:

- meet the assessment criteria.
- achieve the learning outcomes.

Assessment Process

Assessments will be accessible and will produce results that are valid, reliable, transparent and fair. BIIAB Qualifications Limited will ensure that the result of each assessment taken by a learner in relation to a qualification reflects the level of attainment demonstrated by that learner in the assessment and will be based upon the achievement of all of the specified learning outcomes.

BIIAB will make every effort to ensure that it allows for assessment to:

- be up to date and current.
- reflect the context from which the learner has been taught.
- be flexible to learner needs.

Assessment is the process used to judge the competence, of a learner, against set standards. The assessor is the person who is responsible for determining learners' competence. The assessor may be a work place supervisor or an external person who is trained and qualified or working towards a qualification relevant to the assessor role.

Assessors base their judgement on performance and decide how it compares to the national standard. The assessor will also ask questions based on the

knowledge required to do the work, to ascertain the knowledge and understanding of the learner.

When the required units have been completed and the assessor is satisfied that the learner has met the national standard, a recommendation for a certificate will be made.

An Internal Quality Assurer (IQA) is responsible for the quality assurance of the qualifications within the training organisation and will provide advice, guidance and support to the assessors. IQAs also ensure that the assessors apply the standards consistently and fairly. The IQA will review the portfolio of evidence during the assessment process.

An External Quality Assurer (EQA), who is appointed by BIIAB, will quality assure the assessment and internal quality assurance decisions involved in the development of the portfolio. The EQA will quality assure the qualification process, which ensures that certification of the qualification is reliable, consistent and to the national standard, by checking the consistency of assessments made by the training provider, and across training providers.

Requirements of Assessors, External and Internal Quality Assurers

Learners may be assessed, moderated or quality assured at work either by one or several appointed individuals.

Assessors - The primary responsibility of an assessor is to assess learners' knowledge, behaviours and skills in a range of relevant activities and to ensure the evidence submitted by the learner meets the requirements of the assessment criteria. It is important that an assessor can recognise knowledge, competence and behaviours as specified by the national standard. Assessors therefore need to have a thorough understanding of assessment and quality assurance practices, as well as have in-depth technical understanding related to the qualifications for which they are assessing learners. To assess learners, assessors **must**:

- hold an appropriate qualification, as specified by the appropriate regulatory authority, confirming their competence to assess learners undertaking competence-based units and qualifications. Assessors holding older qualifications **must** be able to demonstrate that they are assessing to the current standards;

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. Any assessors working towards an appropriate qualification **must** ensure their decisions are countersigned by a suitably-qualified assessor/quality assurer and should be supported by a qualified assessor throughout their training period.

- be 'occupationally competent'. Assessors **must** provide current evidence of competence, knowledge and understanding in the areas to be assessed. This will normally be achieved through demonstrating competence in the roles which are to be assessed, or demonstrated by relevant experience and continuing professional development (CPD) which may include the achievement of qualifications relevant to the areas being assessed.
- have a full and current understanding of the units of competence and requirements of the qualifications being assessed, including the quality of assessment and the assessment process. It is the responsibility of approved centres to select and appoint assessors.

Internal Quality Assurer (IQA) - A primary responsibility of IQAs is to assure the quality and consistency of assessments by the assessors for whom they are responsible. IQAs therefore need to have a thorough understanding of quality assurance and assessment practices, as well as sufficient technical understanding related to the qualifications that they are internally quality assuring. It will be the responsibility of the approved centre to select and appoint IQAs.

IQAs **must**:

- hold an appropriate qualification, as specified by the appropriate regulatory authority, confirming their competence to internally quality assure competence-based assessments and learners. IQAs holding older qualifications **must** be able to demonstrate that they are internally quality assuring to the current standards.

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. If an IQA is working towards an appropriate qualification, his/her decisions **must** be countersigned by a suitably qualified IQA and should be supported by a qualified IQA throughout the training period.
- be 'occupationally competent'. IQAs **must** demonstrate sufficient and current understanding of the qualifications to be internally quality assured and know how they are applied in the workplace.
- demonstrate competent practice in internal quality assurance of assessment and demonstrate understanding of the principles and practices of internal quality assurance of assessment, including the quality of assessment and the assessment process.

External Quality Assurer (EQA) - The primary responsibility of EQAs is to assure the quality of internal quality assurance and assessments across the centres for which they are responsible. EQAs **must** have a thorough understanding of quality assurance and assessment practices, as well as in-

depth technical knowledge related to the qualifications that they are externally quality assuring.

EQAs **must**:

- hold an appropriate qualification as specified by the appropriate regulatory authority, confirming their competence to quality assure competence-based assessments. EQAs holding older qualifications **must** be able to demonstrate that they are quality assuring to the current standards;

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. If EQAs are working towards an appropriate qualification, their decisions **must** be countersigned by a suitably qualified EQA and should be supported by a qualified EQA throughout their training period.
- be 'occupationally competent'. EQAs **must** demonstrate sufficient and current understanding of the qualifications to be quality assured and know how they are applied in business.
- demonstrate competent practice in external quality assurance of assessment and demonstrate understanding of the principles and practices of external quality assurance of assessment, including the quality of assessment and the assessment process. It is the responsibility of the awarding organisation to select and appoint EQAs.

Appeals

If learners are dissatisfied with an assessment outcome, they have the right to appeal. The **main** reasons for an appeal are likely to be:

- learners do **not** understand why they are **not** yet regarded as having sufficient knowledge.
- learners believe they are competent and that they have been misjudged.

BIIAB Qualifications Limited expects most appeals from learners to be resolved within the centre. BIIAB Qualifications Limited will only consider a learner's appeal after the centre's internal appeals procedure has been fully exhausted.

For full details of the BIIAB Qualifications Limited's appeals procedure please refer to <https://biiab.co.uk/policies-and-procedures/>

Initial Assessment and Induction

Prior to the start of any programme it is recommended that centres should make an initial assessment of each learner. This is to ensure that the learners are entered for an appropriate type and level of qualification.

The initial assessment should identify the specific training needs that the learner has, and the support and guidance that they may require when working towards their qualification.

The centre must also identify any units the learner has already completed, or credits they have accumulated, relevant to the qualification.

BIIAB Qualifications Limited suggests that centres provide an induction programme to ensure the learner fully understands the requirements of the qualification they will work towards, their responsibilities as a learner, and the responsibilities of the centre.

Resources

BIIAB Qualifications Limited provides the following additional resources for this qualification

- mandatory workbook.
- all of these resources are available on request.

Access to the units

Units form the qualification and the standard that **must** be achieved in order to be awarded each unit. This is covered within the learning outcomes, assessment criteria and the indicative content that form part of the delivery.

Design and Delivery

Centres must refer to the units that form the qualification and the standard that must be achieved in order to be awarded each unit. This is covered within the learning outcomes and assessment criteria that form part of the delivery.

Each unit within this qualification has been allocated a number of Guided Learning Hours (GLH).

This can include activities such as training/class room based sessions, tutorials, supervised learning, study or assessment for an average learner.

The qualification will be assigned Total Qualification Time (TQT), which, as well as GLH, will include the estimated number of hours spend in preparation, study or any other supervised learning, study or assessment for an average learner.

When planning how to deliver the qualification it is important to refer to this definition.

Centres must refer to the Assessment Principles and Additional Requirements detailed in this handbook when planning the delivery and assessment of these qualifications.

Format of Units

All units within this qualification will be presented in a standard format that is consistent with the format for all units of assessment. The format will give tutors and learners guidance as to the requirements of the unit for successful completion. Each unit within this specification will be in the format below:

Unit Title

This will be shown as it appears on the Register of Regulated Qualifications (<http://register.ofqual.gov.uk>).

Unit Number / Unit Reference Number (URN)

The Unit Reference Number is the unique code that the unit is given by the Regulator. This unit will be referenced on the final qualification certificate. The same unique code for the unit applies in whichever qualification the unit is included within. BIIAB Qualifications Limited also assign unique unit numbers which is consistent when the unit is used in multiple BIIAB qualifications.

Level

This identifies the level of demand for the unit but may be a different level to that of the overall qualification. The level of the units will be set according to National Occupational Standards and the level descriptors.

Credit

When a whole unit is completed the learner will achieve credits specified by the number of hours' learning time it will take an average learner to complete the unit including the assessment.

Guided Learning Hours (GLH)

The required number of hours that learning should take place under the immediate guidance or supervision of a lecturer, supervisor, tutor or other appropriate provider of education or training.

Total Qualification Time (TQT)

Total Qualification Time (TQT) is defined by Ofqual as the number of notional hours which represents an estimate of the total amount of time that could reasonably be expected to be required in order for a Learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of a qualification. TQT is comprised of the following two elements:

- the number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- an estimate of the number of hours a Learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but, unlike Guided Learning, not under the Immediate Guidance or Supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

TQT is always assigned to the qualification however a similar calculation may on occasions also be assigned to a unit.

Learning Outcomes and Assessment Criteria

Learning Outcomes are what the learner is expected to know, understand or be able to do upon successful completion of the unit.

Assessment Criteria are descriptions of the requirements that a learner is expected to meet in order to demonstrate that a learning outcome has been achieved. There are usually multiple assessment criteria for each Learning Outcome.

Initial Registration

Registration and Certification

Learners should be registered and certificated via BIIAB Qualifications Limited's Customer Management System.

Equal Opportunities and Diversity Policy

BIIAB Qualifications Limited has in place an equal opportunities policy, a copy can be found at <https://www.biiab.co.uk/policies-and-procedures/>

BIIAB Qualifications Limited is committed to ensure that:

- approved centres operate an equal opportunities policy.
- approved centres communicate the policy to staff and learners.
- approved centres have an effective complaints and appeals procedure of which both staff and learners are made aware.
- approved centres are aware of their responsibilities in providing equality of opportunity, particularly with regard to provision for learners with particular assessment requirements.

Reasonable Adjustment Policy

Learners who require reasonable adjustments for their assessments **must** inform their assessor at the beginning of their course of their requirements. BIIAB Qualifications Limited has a reasonable adjustment policy in place, a copy of which is provided to all approved centres and can be found at <https://www.biiab.co.uk/policies-and-procedures/>

Qualification Review and Feedback

BIIAB Qualifications Limited is committed to the ongoing review of this qualification to ensure it remains fit for purpose.

This review approach involves the collation of evidence in the form of any information, comments and complaints received from users of this qualification in relation to its development, delivery and award.

BIIAB Qualifications Limited will give due to any credible evidence received which suggests that a change in approach to the development, delivery and award of this qualification is required in order to ensure that no adverse effects will result. This qualification will be periodically reviewed and revised to ensure the content remains relevant, assessment approach remains appropriate and that it remains valid and fit for purpose.

Mandatory Unit

The following units are mandatory for this qualification.

Unit Title	Awareness of Spiking
Unit Reference	L/651/2800
BIIAB Reference	ASQSP
Level	2
Credit Value	3
GLH	24
Learning Outcome- The learner will:	Assessment Criteria- The learner can:
1. Understand spiking	1.1 State methods of spiking 1.2 Identify where spiking happens 1.3 Explain why spiking happens 1.4 Outline what consent means in relation to spiking
2. Know the impact of spiking	2.1 Describe national statistics on reported cases 2.2 Explain why the national statistics on reported case numbers may not be accurate 2.3 Describe the potential immediate impact of spiking on victims 2.4 Describe the potential short-term impact of spiking on victims 2.5 Describe the potential long-term impact of spiking on victims 2.6 Outline the impact of spiking on communities 2.7 Outline the impact of spiking on venues
3. Understand the reporting procedure	3.1 Explain what should be done if someone is spiked. 3.2 Identify how evidence can be collected 3.3 Describe how to report an incident as a criminal offence, locally and nationally. 3.4 Identify what can be done to encourage the reporting of spiking 3.5 Explain obstacles to reporting spiking
4. Understand how to safeguard yourself and others.	4.1 Identify signs of spiking 4.2 Outline ways to proactively protect against spiking 4.3 Identify signs and symptoms of spiking in a social group 4.4 Identify local and national organisations

	and services which can support spiking victims.
